These Pills, the result of long investigation and sludy, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Veretable remedies, extracted by chemical process in a state of purity, and combined together in such a n amerias to insure the best results. This system of compaction for medicines has been found. in such a n at near as to insure the best results. This system of composition for mericines has been found in the Cherry Pectoral and Pills beth, to produce a more efficient remedy that had be there been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of a rerimentious and infinitus qualities, by this each individual virtue only that is desired for the curative effect is precent. All the inert and of mixing qualities of each substance employed are left belond, the curative virtues only being retained. It is astronomer power ut and detect to disease than any other med cine known to the world.

As it is free dently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of the remedy without knowing its composition, I have supplied the accumite Formulae by which both my Pectoral and Pills ince made to the whole body of Practities ers in the Unit 1St ites and British American Provinces. If however there should be any one who has not received, them they will be

Fra elitic ers in toe Unit also and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by until to his address.

Of all the Patent Med lines that are offered, how few would be taken if their composition was known. Their life consists in their mystery. I have no invested the second of the consists in their mystery.

The consists in their mystery. I have no mysteries.

The con position of my preparations is laid open to all men, and all who are contpetent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its e facts were known. Many caninent Physicians have declared the same thing of my Pills, and even nurse confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their effects upon trial.

They operate by their powerful influence on the Internal viscora to parify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, rest ring their irregular action to health, and by correcting, wherever they exist, such derange-
